

Work Health and Safety MARCSTA Induction Renewal Options

For candidates who hold a current MARCSTA Work Health and Safety Induction Certificate there are two options:

- **Successful completion of a half day refresher program, or**
- **Successful completion of the Fast Track written question one-hour examination**

Recognition of Prior Learning (RPL)

For candidates who do not hold a current MARCSTA Work Health and Safety Induction Certificate, RPL is available as follows:

- **Candidates who provide evidence of five (5) years total mining industry practical experience with three (3) years recent Western Australian mining experience and a working knowledge of current occupational safety and health practices can make application to sit the Fast Track written question one hour examination.**
- **Candidates who hold a current equivalent qualification from other Australian jurisdictions can make application to attend the half day refresher program.**

Ask your MARCSTA training provider today for further information on Renewal Options and RPL for the MARCSTA Work Health and Safety Induction or visit www.marcsta.com
