

“It Pays to Care” ‘Community of Practice’

Proudly Sponsored by

Following on from last year's successful It Pays to Care (IPTC) event, the Occupational Health Society of Australia Inc. is excited and proud to be facilitating the first IPTC's Community of Practice (COP) being held in Perth.

Psychosocial Interventions for Workplace Injury.

We have secured dedicated places for a **limited number of OHSA members**, ideally those involved in this work or wanting to learn more as the session will involve participant interactive discussion.

Hear from Dr Mary Wyatt remotely (IPTC Policy & Advocacy Lead), supported by Dr Amy Bright from IPTC and OHSA, about IPTC research and psychological matched care guidelines <https://www.itpaystocare.org/resources-1/biopsychosocial-approach> then from others who have successfully implemented these programs.

The event is kindly sponsored by Redimed and Navigator Group who are both doing amazing things in the psychosocial space. If attending, you can meet and network with them and others who also have an interest in this area.

This presentation will be followed by a Networking Soiree with light refreshments.

When: Thursday 14th May 2026

Time: 3.30pm to 5pm

Where: Redimed, 1 Frederick St, Belmont

RSVP: via Eventbrite. Contact Vanessa Lentile (IPTC Events & Comms Support) vanessalentile@rtwmatters.org

Cost: FREE for OHSA Inc. members who **MUST REGISTER** attendance.

Given numbers are limited for this first event, if you are keen to come, register early on the **following link** to avoid disappointment:

<https://www.eventbrite.com.au/e/iptc-community-of-practice-psychosocial-interventions-for-workplace-injury-tickets-1984933170546?aff=oddtcreator>

Hope to see you there in what will be a first for both OHSA and IPTC, with benefits for the wider community also as we will be joined by others including ARPA rehabilitation providers and insurer representatives.

This presentation is relevant to all OHS Professionals (Occ Physicians, Occ Health Nurses, Safety Managers, Case Managers), Insurers, Brokers & other allied health professionals interested in successful Injury Management.

The event WILL be **telecast online via MS Teams**, BUT you must Register for the event prior with a summary posted on the OHSA Inc. website.
